2017 Head Professional Roundtables

We have selected five geographical locations for this years Head Professional Roundtables. At each location we will set up a number of tables for professionals at similar facilities to discuss topics most relevant to their golfers and their operations.

We hope each attendee will their completed compensation survey as well as questions or concerns they wish to share. Possible topics include: the impact of the economy on golf and how facilities and PGA Professionals can respond; building rounds and attracting new golfers to the game; the value of surveys; importance of sharing information and resources; staffing issues; trends in the industry; new educational opportunities; and sharing thoughts about job parameters.

One person in each group will be responsible for taking notes and sharing with the Board the “best ideas” and success stories of our members.

To register for one of the Roundtables please click on the location name or visit www.met.pga.com.
