

Colonial Springs Golf Club is seeking an Assistant Golf Professional for the remainder of the 2022 season and the 2023 season.

About Colonial Springs Golf Club:

Since opening in 1995, Colonial Springs has been one of Long Island's most popular golf courses. With its challenging twenty-seven hole layout, and its convenient location just east of the Nassau/Suffolk border, Colonial Springs is easy to get to and fun to play. Colonial Springs's spaciousness, sandy terrain, and extensive oak and pine covering make it an ideal location for a top-quality golf course. In 2004, Colonial Springs announced its plan to convert to a private, members-only club and hired world-renowned golf course architect Robert Trent Jones, Jr. to take the course to the next level. Over three seasons, Mr. Jones's work was carved into Colonial's sandy soil. The final stage, the renovation of the Pines nine, was completed in 2007. Golf Digest nominated Colonial Springs for the 'Best Renovation' in 2007.
