

Facility: Harbor Links Golf Course, Port Washington, NY

Website: www.harborlinks.com

Position: Teaching Professional (seasonal – April 1 to October 31)

General Description:

Full time teaching position that will require 5-6 days of teaching, reporting directly to the Director of Instruction.

An integral part of our instruction is the junior program, with sessions for all skill levels, ages 4-16 years old, offered every day of the week.

Adult programs include weekday clinics, Beginner Golf Programs, as well as topic specific programs (ex.: Aimpoint Express clinics).

Individual private lessons are also provided for adults and juniors.

One to two pro shop shifts will be provided to supplement your income, as well as provide an opportunity to schedule lessons. These will not be during generally busy hours of teaching, such as late afternoon-early evening times. You also may ask for additional shop shifts if you wish to make additional income (hourly wage). As your lesson schedule fills, it is quite likely that you will no longer need the pro shop shifts.

You are free to observe/shadow the DOI's lessons and programs, and may, in fact, be part of the program teaching, for which you would be a paid instructor. In addition, you are also encouraged to be inquisitive about what you observe while shadowing.

Come November 1, if your lesson schedule is busy and you wish to continue teaching, that will be fine.

The position is an employee of Harbor Links Golf Course, which is a municipality. Any questions regarding employee benefits should be directed to the General Manager.
